

KELLSTROM DEFENSE TO DISTRIBUTE DUCTING PRODUCTS FOR SENIOR AEROSPACE SSP

MIRAMAR, FL, June 20, 2017 – Kellstrom Defense Aerospace, Inc. (“KDA”) is pleased to announce that they have been selected by Senior Aerospace SSP (“SSP”) to be an international military distribution partner for SSP ducting products. Under the recently signed distribution agreement, KDA’s territory will cover all international sales except Japan for several military platforms.

SSP is a recognized leader in the design, manufacture and support of bleed air and ECS ducting systems, providing a total resource systems solution to complex ducting requirements. For more than 50 years, Senior Aerospace SSP has provided engineered solutions for the rigorous challenges of ducting systems and precision metal fabrications.

“The robust global presence and technical offerings of Kellstrom Defense will ensure the service and cost performance levels that our foreign military customers have come to expect,” stated Mark Flohr, SSP Vice President of Aftermarket. “We look forward to having Kellstrom Defense as part of our team.”

About Senior Aerospace SSP:

Senior Aerospace SSP (formerly Stainless Steel Products) located in Burbank, CA USA is a part of Senior plc www.seniorplc.com, a group of international manufacturing companies with operations in 11 countries manufacturing and marketing components and systems for principal OEM’s in the worldwide aerospace, automotive and specialized industrial markets. SSP, as a recognized leader in the design and manufacture of bleed air and ECS ducting systems, provides a 'total resource' systems solution to complex ducting requirements. As a system partner, SSP provides comprehensive engineering resources throughout design, development, qualification and aftermarket support activities.

About Kellstrom Defense Aerospace, Inc.:

KDA is a global provider for the sustainment of legacy defense aircraft through OEM sanctioned distribution, component MRO, and engineering and manufacturing solutions for the C-130, F-16, F-5/T-38, F-18, P-3, Boeing 707 defense derivative aircraft, and multiple rotary-wing platforms. With operations in Camarillo, CA; Miramar, FL; Macon, GA; Cambridge, UK; Windsor, AU; and Singapore, the KDA team provides support to the United States military and over 60 partnering nations. Kellstrom Repair Services, Inc. (“KRS”), a wholly owned subsidiary of KDA, specializes in providing Maintenance, Repair & Overhaul (“MRO”) and sustainment solutions for legacy military aircraft and rotor wing platforms worldwide. KDA is backed by equity syndicated by Dubin Clark & Company, Barings, and PNC Equity. This partnership provides equity capital to fuel the growth of the company portfolio. Further information is available at: www.kellstromdefense.com.

About Kellstrom Repair Services:

Kellstrom Repair Services, Inc. (“KRS”), a wholly owned subsidiary of Kellstrom Defense Aerospace, Inc. (“KDA”), specializes in providing Maintenance, Repair & Overhaul (“MRO”) and sustainment solutions for legacy military aircraft and rotor wing platforms worldwide. KRS is a Honeywell and AMETEK Authorized Repair Station specializing in the repair and overhaul of Auxiliary Power Units, Engine Driven Compressors, and a full range of mechanical, electro-mechanical, instrument, pneumatic and fuel system components. KRS also specializes in the repair and overhaul of Accessory Class III components, Instrument Class I, II, III and IV avionics, and landing gear systems. KRS Repair Management leverages KRS in-house repair capabilities and a network of FAA & EASA authorized facilities to provide value added MRO solutions for both OEMs and end user customer. Further information is available at: www.kellstromdefense.com/mro.

About PNC Equity, Barings, and Dubin Clark & Company:
