

Bradley J. Morton

Chairman of the Board

Bradley Morton has spent over thirty years in the aerospace market vertical in executive management positions for both public and private corporations. He is an accomplished leader with strong strategic and operational expertise for defense companies offering complex solutions.

Mr. Morton currently serves as an independent board director for PAS Technologies, a KRG Capital Partners portfolio company.

Prior to that, he served a ten year term as President of the Eaton Aerospace Group where he lead an organization focused on the design and development of aircraft hydraulic, fuel, actuation, and electrical control systems. Under his leadership, the Eaton Aerospace franchise grew from a revenue of \$750M to over \$1B while improving operational margins.

Mr. Morton spent the longest stretch of his career of twenty-one years with Honeywell Aerospace and the former AlliedSignal, where his roles included increasing responsibilities in the areas of project engineering, program management, sales and marketing, product support, manufacturing operations, and general management.

Mr. Morton holds a B.S. degree in mechanical engineering Technology from Purdue University and an M.B.A. from Indiana University. He also completed the Thunderbird Consortium II at The American Graduate School of International Management in Phoenix and the Board Director Education and Certification Program at the UCLA Anderson Graduate School of Management.

**Leadership.
