

## Scott Wooden

President, Engineered Products

Scott Wooden is the President for the Engineered Products business segment at Kellstrom Defense. Scott is responsible for the overall leadership of the Camarillo, California site, the overall Engineered Products business and operational teams, and the Miramar, Florida based Life Extension Programs (LEP) product line. He serves as the business leader for the Engineered Products segment business strategy, growth planning, new product development, engineering, manufacturing, operations, and supply chain efforts.

Mr. Wooden comes to Kellstrom Defense with over twenty years of experience as an operating leader, with expertise in developing strategic direction, operational excellence, financial management, business planning, and process improvement. Prior to joining Kellstrom Defense, he served as the Division Operations Officer at Smartrac Technology, responsible for all global operational functions for the Secure Identification and Transactions Division across five countries and based in Thailand. He also served as the in-region Senior Vice President, Asia Pacific Operations, responsible for the full P&L in the APAC region covering the functions of manufacturing, finance, HR, IT, engineering, quality, and business systems. Scott has also held numerous business leadership roles both internationally and domestic at Benchmark Electronics, Thomson, and Solectron, with a focus on diverse technologies and global end markets.

Scott earned a B.S. in Finance from Oregon State University and completed the Harvard Executive Management Program.

**Leadership.  
Innovation.  
Excellence.**

We have an aggressive goal to become the best at what we do!
